

Export License Request for End User Information

An Export License is required by the U.S. Department of Commerce in order to export certain biomaterials outside of the United States. Please complete this form in its entirety so we are able to evaluate your request and process your order in a timely manner.

It is a requirement of the Export License that we ship materials requiring an Export License directly to the end user of these materials. In order to process your request, we will need the following information for the end user:

Note: Please type your information into the fields below.

Date

End User Contact Name

End User Contact Phone #

End User Email Address

End User Ship To Address

Distributor:

Distributor Contact Name:

Distributor Phone #:

Distributor Email Address:

Once the above information is received, we will provide you with a quote of approximate freight charges and all other fees associated with obtaining the Export License.

If you have any questions, please contact Tricia Holig, Customer Service Manager at tholig@microbiologics.com or 320.253.1640.

We look forward to working with you and thank you for your business!
